RULES OF THE ENGINEERS' STUDY GROUP ON ECONOMICS.

(*Adopted at the Annual General Meeting on 21st September*, 1938).

Name.

1. The name of the society shall be "The Engineers' Study Group on Economics", hereafter referred to as "the Group".

Objects.

2. (a) The main object of the Group is set out in the following resolution which was passed at an early meeting of the founders :—

"We, as a representative group of engineers and scientific workers, are dissatisfied with the fact that the community is not enjoying a standard of living and leisure commensurate with the potential advancement for which science and technology are responsible, and are meeting to discuss why the paradox arises and how it can be resolved".

In accordance with this resolution, the further objects of the Group are :—

1) to promote study and research in economics and allied fields ;
2) to bring together, by means of meetings and correspondence, and by co-operation with other organisations, engineers and scientific and other professional workers interested in such study and research ;
3) to publish reports and other documents embodying the results of study and research ; and
4) to do any other things incidental or conducive to the attainment of the aforesaid objects.

(b) The Group in co-operating with any political organisation shall not be affiliated thereto.

Membership.

3. Persons eligible for membership comprise (1) all persons whose names are on the Group's membership list on the day when these Rules are adopted, together with (2) any person whose application for membership is accepted after that day by the Management Committee (see Rule 6), in accordance with the conditions for the time being in force ; provided always that the Management Committee shall have power at any time to cancel the membership of any person if the Committee are of the opinion that such person is acting contrary to the interests of the Group.
